The story of travel involves more than a ticket and a passport. Travel is a personal journey that begins with your first steps off the plane and ends with your last, when you return home. It should weave together discovery, education and humanity, and offers you a wealth of knowledge throughout your entire life. It is a means of escape, a way to experience a different world. It is a way to see the world in a new light, to gain a better understanding of the people and cultures you encounter. It is a way to learn about the world, to experience a different way of life.
