Dear Alumni and Friends:

Join us for this once-in-a-lifetime exploration of Iceland—a land of incredible natural wonder, where glittering glaciers cap simmering volcanoes, ancient Viking ruins exist alongside the latest in geothermal technology and prolonged daylight melds into the lingering twilight.

During our specially designed seven-night circumnavigation of this Nordic island nation, experience an ever-changing landscape of unimaginable scenery that exists nowhere else on Earth and encounter Iceland’s wondrous sights at close range. Cruise aboard the exclusively chartered, Five-Star, all-Suite STAR PRIDE, with the ability to cruise into small ports inaccessible to larger vessels and to alter course as a kaleidoscope of wild, ethereal landscapes and mystery unfold before you.

Look for rare migratory birds, orcas and humpback whales; admire steaming geysers, rugged coastline and pristine beauty; and touch ice fragments calved from one of Europe’s largest glaciers. Visit Grimsey Island, crossing into the Arctic Circle, and cruise up close to Surtsey, one of Earth’s youngest islands and a UNESCO World Heritage site. Explore the majestic, rocky vista of a former lava lake and marvel at dramatic Goðafoss, the “Waterfall of the Gods.” Discover centuries of mythic lore and epic sagas forged upon the land, and learn more about the enduring spirit of generations of coastal Icelanders—a warm and friendly people whose love of nature, respect of resources and resilient character have kept them thriving here for centuries.

Don’t miss this unforgettable adventure through the wonders of Iceland, featuring included round-trip air from Boston, New York-JFK, Newark and Washington-Dulles; or Low Air Add-Ons for an additional $200 per person from Chicago and Minneapolis or an additional $300 per person from Denver and Seattle. Make your reservation while space and Early Booking Savings are still available!

**LAND of FIRE and ICE**

A land of unparalleled geological riches, Iceland is comprised of 4500 square miles of glaciers, 15 active volcanoes, 10,000 waterfalls and 800 hot springs. Born of the monumental forces unleashed during the movement of the North American and Eurasian tectonic plates, and at the same time carved out by majestic glaciers, the land is a combination of intense natural energy and veritable calm. The topography of Iceland as we know it continues to evolve, yet many of its landscapes have hardly changed since the first Viking settlers saw it more than 1100 years ago.

During your circumnavigation, see volcanic craters and fissures; watch as bubbling hot springs send steam into the air against a backdrop of Mars-like terrain; encounter snowcapped mountains and black lava desert; and come upon pristine, powerful waterfalls and the deep freeze of mammoth ice caps. Along the coast, Iceland’s characteristic fjords—deep inlets cut into the coastline—chronicle the pathways of its glaciers. All of these natural wonders are in constant flux, as glaciers calve and shift and new mountains emerge from volcanic lava flow. The result is a startlingly beautiful portrait of Earth in process—a raw, primordial landscape hewn by the forces of fire and ice.

**U.S.**
**Wednesday, July 25**
Depart the U.S.

**Reykjavík, Iceland**
**Thursday, July 26**
This morning, arrive in Reykjavík, the world’s northernmost capital. See the idyllic recreational sports area of Laugardalur, where geothermal water keeps an Olympic-sized outdoor swimming pool open year round. Continue to the Pearl, Reykjavík’s remarkable landmark glass dome built atop six 10-story hot water tanks, and admire a captivating view across the city from the dome’s observation deck. Tour the National Museum for a comprehensive overview of Iceland’s history, culture and heritage. Visit the iconic Hallgrímskirkja, a towering Lutheran church and the tallest building in Reykjavík. Pass by the picturesque houses of central Reykjavík before boarding the STAR PRIDE.

**Please note that the ship’s cruising pattern and direction are dependent on weather conditions and are subject to change.**

**Vigur Island/Ísafjörður**
**Friday, July 27**
Enjoy the morning cruise to the awe-inspiring Westfjords. On charming Vigur Island—home to one single farming family and thousands of puffins, Arctic terns, black guillemots and eider ducks—observe the birds in their natural habitat and see Iceland’s only windmill, built in 1840. Visit the country’s smallest post office and enjoy coffee and cakes served by our hosts in their well-preserved, 19th-century house.

This afternoon, cruise up the dominant fjord of this remote 14-million-year-old region, Ísafjörður’s Dýp (“deep”), defined by rugged mountains. Near the town of Ísafjörður, visit the open-air Ósvör Maritime Museum where restored traditional 19th-century fishermen’s huts and fishing equipment vividly depict the harsh reality of the lives of generations of Iceland’s fishermen. Tour Ísafjörður’s Westfjords Heritage Museum to learn more about coastal art and culture and

the fascinating maritime history of this remote outpost.

Attend the Captain’s Welcome Reception on board the ship this evening.

Siglufjörður/Arctic Circle/Grímsey Island
Saturday, July 28
Picturesque Siglufjörður is a small, historic fishing hub built from the success of the herring industry. Visit the award-winning Herring Era Museum and enjoy a lively, music-filled performance, then sample traditional local herring and Icelandic schnapps.

Return to the ship for the unforgettable cruise past the mountains of Eyjafjörður, Iceland’s longest fjord, to Grímsey Island and visit Grímsey Church, built out of driftwood in 1867. Officially cross the Arctic Circle, the top of the world, where the island is treeless but lush with grasses and mosses. See thriving populations of puffins and auks—their black and white coloring is similar to a penguin’s, but auks have the distinctive ability to fly and to dive into the water.

Námaskarð is known for its otherworldly terrain sculpted by sulfuric mud springs.

Húsavík for Lake Mývatn
Sunday, July 29
Explore northern Iceland’s extraordinary natural landscapes, stopping at Námaskarð, an unearthly field of boiling, sulfurous mud pots, and the pseudocraters at Skútustaðir, formed when hot lava flowed over the wetlands 2300 years ago. Walk among the surreal lava formations of Dimmuborgir, the mythic source of Icelandic folklore, and drive along the shores of cerulean Lake Mývatn, a birder’s paradise and a haven for many rare migratory birds and 14 species of Iceland’s bountiful wild ducks.

Continue to Goðafoss, “Waterfall of the Gods.” According to legend, this spectacular waterfall earned its name when...
an Icelandic chieftain threw wooden statues of his Norse gods into its crashing waters, signifying his conversion to Christianity.

**Seyðisfjörður**

Monday, July 30

Seyðisfjörður is a tranquil, 11-mile-long fjord that winds toward the charming, eponymous town, where well-preserved, colorful, chalet-style houses shelter beneath Mounts Strandartindur and Bjólfur (Beowulf in English). The glittering Fjarðará River cascades down from the verdant valley and runs through the center of town into the lagoon at the head of the fjord.

Visit the town’s iconic Blue Church and observe a specially arranged cultural and musical performance. Continue to the Technical Museum to learn how technological advancements in mechanics, communication and architecture have shaped this island nation and enjoy light refreshments.

**Djúpivogur for Jökulsárlón**

Tuesday, July 31

Enjoy a full-day scenic excursion along Iceland’s east coast from Djúpivogur to the Jökulsárlón glacier lagoon. Enjoy a panoramic tour of historic Höfn, a small fishing village known for its stunning mountain views, including lunch.

Then, board a small boat for a private cruise amid breathtaking icebergs and actually touch the ice that has calved off the outlet tidewater glacier, Breidamerkurjökull.

**Heimaey, Westman Islands/Cruise along Surtsey Island**

Wednesday, August 1

Arrive at Heimaey Island, part of the Vestmannaeyjar (Westman Islands) archipelago, where the tall cliffs are inhabited by puffin, fulmar and guillemot bird species.

Tour the Eldheimar Museum, which chronicles the fateful volcanic activity of 1973 that created Mount Eldfell, and see the incredible formation, also known as “Fire Mountain,” and its lava fields that are still warm to the touch over 40 years after its last eruption.

Stop at the precipitous headland of Stórhöfði to observe Heimaey’s largest puffin colony and see the ruins of ancient Viking farmhouses dating from A.D. 650.

This evening, cruise along the coast of Surtsey Island, a UNESCO World Heritage site. Created during volcanic activity between 1963 and 1967, it is one of the youngest islands on Earth and one of the most fragile; scientists are carefully monitoring the evolution of its flora and fauna.

Join your traveling companions for the Captain’s Farewell Reception.

**Reykjavík/U.S.**

Thursday, August 2

Disembark and transfer to the airport for your return flight to the U.S. or continue on the Greenland’s Ice Fjord and Glaciers Post-Cruise Option.
