"I am a part of all that I have met"

joyce
when the snow fell on mount lemmun i rejoiced
hot days are over
but what would it be like
to live in the andes cold forever
with no furnaces
are those things a part
of me or are they only
pictures like an artist
would paint how can
you paint a picture
of firey hot molten slag
and still despise the pollution
colused by smelter smoke
when i first saw her
my mind leapt to the
taste of her lipstick
and the chords of a peaceful song
struck in my heart
while at the same time
i could hear the cheers
of a crowd around me applauding
the matador's kill and i
saw the blood and
remembered my brother in
vietnam
i wonder if he can smell
flowers i take for granted
i could feel the dejection
as the cat eleven lost
game after game and suddenly
i realized that it isn't
how you play the game
but whether you win
or lose
somehow the words of
doctor spock weren't so reassuring
as the trickling waters in sabino
i lay there on the mossy
rocks and looked at the
last leaves falling from a tree
what is it like to die
seeing men walk on the moon wasn’t as awesome to me as our own bodies how could anything so wonderful be created i could smell christmas all around me pine needles turkey dinners perfume scenting the air and as i flew to jamaica for the holidays i wondered what the kids whom i took to camp wildcat would be doing would they ever feel those plaintive blues of my favorite soul singer
the lights around me
are brilliantly flashing
psychedelic moving twisting
glowing as my mind
flashes on and off
who am i
what is my matric
what did he say the exam would cover
meiosis what’s that
i wonder if all these people
think like i do
they just sit there
laughing eating protesting
running like i do
since i came here
i have become sensitive
not that i am touchy
but that i can be touched
i am aware
aware of all that is happening
around me
my senses are more acute
than those of past generations
i can see hear taste
smell and feel things
that wouldn’t normally
appeal to the senses
i am a part of all that i have met

entering the most difficult season in UA football history the 69 Wildcats faced gridiron greats Iowa, Houston, and K-State and nationally ranked WAC foes Wyoming and ASU with new head coach Bob Weber the inexperienced sophomores and juniors led by top notch seniors Gardin, Duke, Sherwood, Miller, and Macklin lost the openers to Wyoming, K-State, Iowa, and Houston. A lack of confidence, costly fumbles, interceptions, and injuries to Driscoll and Husted were healed on home ground and the Cats beat UTEP 26-10 and New Mexico 52-28. The second half of the season saw losses to BYU, Syracuse, and ASU, but the Cats held them low statistically.

7000 straight UA students and townspeople marched to the federal building in downtown Tucson as a part of the nationwide moratorium. President Nixon said the October event would not influence his decisions on the war. It was the first of several monthly peaceful demonstrations to end the war. Speeches, crosses naming war dead, armbands symbolized students’ pleas to give peace a chance.

music of today—all around to our minds

music of today is seeking to expand our thoughts whether we listen to professional musicians with their expensive guitars and amps or whether we stop on our way to class to spend a few moments discovering the sounds of a campus musician lounging in the grass we find that music has depth no longer is it of main importance that a song has a groovy beat to dance to rather what are they trying to say is on our minds like everything in our lives music will change again and again and again but what will come next will we go further into understanding life through music or will we regress to the surface and remain there accepting but never questioning

UA students had many outlets for service on campus and in the community. Fraternities and sororities sponsored their own projects, such as cleaning up or being a child's tutor and friend. The Newman Center sponsored Project 400 at San Xavier to clean up and paint the mission. Many men on campus became involved in the Big Brother program. They became friends with a fatherless Tucson boy who needed a relationship with an adult male. UA students volunteered to serve others.

evaluated their year

If the greek system doesn't become more relevant in a few years there won't be a system to worry about in trying to answer this question ifc and panhel took a close look at what they had really been accomplishing through the years and came up with some ideas for improvement revising girl's rush to make it more informal allowing freshmen to live in houses the restructuring of ifc to the president's club a more open rush with rushees living in the houses motivating people to become active on campus again all aimed at bettering and strengthening the system and improving their image.
arizona in the opinion of many is fraternity country

frat men and sorority girls try to look and act better than the rest of us but the 'rest of us' are sick of it
everybody's talking—
will fraternities weather their woes

fraternities have not made the
change to fill the needs and
desires of the new generation
of college students
i'm not sure i can say what
these things are
but whatever they are
very few fraternities have met
the challenge

friendship and brotherhood
are great but shouldn't be confused with
a bunch of guys just pretending to be
friends because sorority women tend
to be so extremely conservative

those ua men who have chosen to join a fraternity and
who in turn the experiences resulting have been some
of the warmest, most satisfying and most intense of
their college lives

i would say that fraternity
men are really fed up to the
neck with sorority because
sorority women are so
extremely conservative

without greeks the core of this school's spirit would be lost

the winds of change
are whistling down
halls where once the
only voices raised
of the virtues
of fraternity

Members were on Suab Board asua Senate Kaydettes Angel Flight Chimes Spurs Pom Poms and cheerleading.

The Phi Beta Chapter of Delta Delta Delta had a busy year social activities included a tri Delta workday apple polishing dinner and the celebration of founder’s day in November their social service project was to co-sponsor a Halloween and Christmas party for underprivileged children. Tri Delta participated in campus affairs by being in Angel Flight Suab Board and Spurs.
Delta Gamma founded on the UA campus 47 years ago as the Alpha Pi chapter and since have established themselves as one of the top houses though finally they were rid of their moustached neighbor but not Sig Chi. Karen Shields was named Miss Arizona members were named to Spurs Chimes and Mortar board the Creme Puff and the get ruined at the shipwreck party made a great year for a fantastic house.
Delta Zeta, founded at Miami University in 1902, has grown to a national size of 180 chapters. In keeping with their national growth, the Beta Iota chapter founded on the U of A campus in 1966 is the newest sorority on campus. It has also grown to include a pledge class of 30 in addition to their own house functions. Delta Zeta was also active in hostesses and desert mermaids.
gamma phi beta spent the year in parties for the underprivileged as well as for fraternity men. Public service and social activities are included. Angel Flight Kaydettes and Spars goals are set socially, spiritually, and scholastically. Following through kept gamma phi in the thick of greek life for their forty-eighth year at the UA.

Pi Beta Phi's Alpha Chapter which was founded on our campus in 1917 had a full year sponsored a child for the Appalachian area this year as their social service project. The goals of the Pi Phi's this year were scholarship and participation and so they were active and the UA had hostesses and Angel Flight had angels and the Powder Puff Derby puffed
Sigma Delta Tau involved in Angel Flight Spurs and Symposium record growth since 1959 brings us to 85 girls with social functions like pledge presents exchanges and pledge active party how can we help but go despite rumors to the contrary SDT stands for Alpha Pi chapter of Sigma Delta Tau.
Phi M after recuperating from an exhausting rush welcomed their pledges with a surprise breakfast for their social service project this year phi mu adopted a group of socially deprived youngsters and took them on monthly outings. phi mu ended the year with an Easter party for underprivileged children and the spring formal.
ifc and panhel cannot help the system unless the system is willing to help themselves. Before the system will see a betterment, before they can worry about their image on the outside, they will have to solve their individual problems by themselves.

In the past the Greeks were special and the people came to them now the Greeks have to go to the people to prove the system and themselves.
the system provides an avenue for meeting people to freshmen and sophomores and it probably services this group the best as juniors and seniors have found other things to occupy their time the houses must meet their wants and needs too

the greeks are definitely not the most important group on campus but they play a beneficial role to the university.

...too many people think that greeks are unconcerned about the world around them they believe a greek is a shiny new car nice clothes and a pin the greeks have to prove that there is something besides walls and rooms inside their houses some are realizing this and as with all societies some just don’t care

the lasting friendship and close ties are perhaps the most beneficial gained from being a greek

Alpha Tau Omega kept their silver home from Germany this year but meanwhile a car rolled over Mt Lemon. They helped the Yaqui Indians make black and white tracks around campus dropped drawers and said hello to Ruthie. The Maltesians made a big splash with the house mother but the pledges were the crowning crashing glory on the way to Nogales on their walkout and ATO live through another year.

Phi Gamma Delta kicked the year off with the annual snake fry at Mt. Lemon and followed it with the flaming purple garter party. The Ole Ponderosa had a complete face lifting but the let's dance set almost lifted the roof off of Pi Mu during their initiation. But turn about was the name of the game in Greek Week with over 113 service projects. Sammy Knight and the Islanders had the year of their best.
phi delta theta's second hand store had a brisk year. Trophies disappeared forever but there was a quick turn over in home furnishings. Phi delts thoughtfully donated blood to the blood drive before their prohibition party. A food drive and ticket sales for the shrine circus this year. The phi delts landed the first man on the moon, Neil Armstrong, and an anonymous pledge at their high nooners.

thita chi set a record for eating candy when the stove exploded and the meals were cancelled. The pledge class gift, a basketball backboard, was stolen before it was put up despite losing some of their pledges. The house pulled together with more spirit than ever. The social calendar was finished off with a wine tasting party with Delta Upsilon and Theta Chi. Thita chi is looking for an even better year in seventy.
Zeta Beta Tau helped to change the fraternity image this year by totally revising its pledge program to remove hazing and to concentrate on developing character. Other Zeta Beta Tau firsts included a conspicuous absence of bona fide angels at its Hells Angels party and the Beatles didn’t show for the formal or maybe the Zetas just were too engrossed to notice them.

dorm life: four walls become a prison or a home
dorm living-one room
your first home away from home

there's something special and
different about living in a
dorm it's more than a place
to sleep and keep your
clothes and records you
studied there after the
library closed you hung your
posters there you brushed
your teeth there you laughed
with your friends there it's
a place to remember
dorm living
no money
no food

food was not always easy to come by in a dorm either you were flat broke or the vending machine took your last quarter and no pepsi in return so you borrowed a buck and headed to the coop but nothing sounded good so back to the dorm and peanut butter and ice tea
dorm life-no Hilton hotel as much a home as you made it

dorm living was often compared to life in a prison. Drab walls, narrow dim halls, women's rules, but upon closer look it was the individual who made his own prison. No friends, no will to make things better. It was more like a pig pen, not only living in your own filth but within your own mind.
dorm life
excellent way
to waste time
dorm living meant watching
the boob tube more than you
studied you watched harvill
and swede johnson talk on
campus issues with some
students you also watched
mission impossible and
laugh-in basketball was
another excuse not to study
catching someone else's
germs and going to the
infirmary for a few days was
also a convenient way to
ditch a few classes
exchange between dorms
you rocked out met new people

like to go to louie’s
look for another home
when the dorm is not the place

ever get tired of the dorm
one more red brick and it's
all over it usually comes
before a vacation or before
an exam or just anytime
head to the poc if you're
21 or call asua travel
service three months
before or convince
yourself that nogales
won't hurt you
you just need a place to

dorm life—the campus your world
thousands of people for neighbors

by living in a dorm you probably knew the campus better than the gardeners what a neighborhood you knew the location of every bench and shortcut no other gatherings so many cops so many important people or moved so fast what a world
the course outline says test March 19 you miss the entire week’s lectures but the turkey next door went to everyone of them while you slept the night before comes and you panic your notes are incomplete and you swear to reform the test says ask three questions and answer them head back to the dorm and blame everyone but yourself

studying in dorms isn’t quite so easy
apartment living——world of sun
your own hours food housekeeping

an apartment and you thought
at long last all the privacy
i ever wanted then the

student involvement and participation sparked
a tidal wave of concern on the part of students drastically affected the actions of student government at UA and across the nation. Students started to look at many of society's problems never before have they participated in their own self-government as much as they did this year.

Student participation on committees, keys for women students, ASUA off-campus housing service, Link gave UA ties with the community all of this helped make an education at UA a meaningful experience with the world beyond the campus gate. Irene Pierson said education is what you have left when you forget all the facts.

--Margaret Maxwell

The student senate had several accomplishments this year. Link and the human relations board are two prime examples. Students served on college faculty committees and participated in faculty senate. Some did not agree with the senate action to boycott grapes to support the moratorium or to demand Harvill's resignation. By these actions all the good was forgotten.

--Linda Robinson

Evening Walk
— for Susan

Even this plain of sand
that never felt
the surging of a root,
the shade of a small leaf,
even this is not a wasteland.

The beginning is
yet to be made here.

I know that.
I wander here
without the old disguises,
hoping to begin with it.

Alone, but never so sincere
about being followed
as now, and here.

The desire to share my
self in this cooling twilight
flares in private sunset
on my flesh.

And I wait.

Wait for my own light
to trace your hands and face
out of this formless night.

— Reid Woodward

Finding Our Legs

Like a miracle
we survive on cake and seawater.

After the ceremony of hands
trees look to us, waiting to bereach.
At home, wild mountain flowers (yellow)
after a week tortured
begin to wither; yellow. Fresh water.

Dark-candlelight cheapens matches.
Words read by firelight make men great.
One man stands at a party
and says, "I'm afraid."
I run and hug him
and somebody hugs me
and somebody him (and on and on).
We explode, disappear
and find ourselves right back
where we were. Only the man is smiling.
And we wonder.

— Rebecca Gorrell
course evaluation tells it like it is in classes

this year’s free course evaluation booklet gave more feedback to 10000 teachers and students on teaching methods and effectiveness. The students’ opinion poll was aided by spurs and the sophomore class as a money-raiser. The atmosphere and format of the teachers and courses were checked by the staff which worked out of a 9 x 10 cramped office. Students graded text, teacher, and test.
