

COVID-19

GUEST HEALTH & SAFETY PROTOCOLS

As we prepare to return to global travel in the midst of the ongoing COVID-19 pandemic, Odysseys Unlimited is asking all guests to make a commitment to take responsibility for their own health, and to take all reasonable precautions to safeguard the health of their fellow travelers, their Odysseys Unlimited Tour Director, and all service providers. As part of this commitment, while on tour, all travelers will be required to adhere to a series of health and safety protocols, which can be found below.

We encourage you to read all of these protocols carefully and to contact Odysseys Unlimited with any questions. **Please note that any guest who fails to adhere to these protocols while traveling will be dismissed from the tour with no refund and with onward travel at their own expense.**

Thank you for your flexibility, your understanding, and your loyalty under these unprecedented circumstances. We look forward to welcoming you back on tour safely!

Guest Health & Safety Protocols

Prior to Departure:

- **All Odysseys Unlimited guests traveling in 2021 will be required to be fully vaccinated against COVID-19 OR to produce a negative COVID-19 test taken no more than 4 days prior to arrival on tour.** Additional entry requirements related to COVID-19 may be imposed by foreign governments as well. Please read more about Odysseys Unlimited's policy pertaining to vaccination, testing, and global entry requirements [here](#).
- At approximately 4-6 days prior to departure, Odysseys Unlimited will contact all guests by phone to conduct a pre-tour health screen. Guests will be asked whether they are exhibiting any [COVID-19 symptoms](#) or have recently been diagnosed with COVID-19. **At the time of this screening, any guest who is exhibiting COVID-19 symptoms, regardless of vaccination status, will be required to provide a negative COVID-19 test before joining their Odysseys Unlimited tour. Any guest who has recently contracted COVID-19 prior to travel will need to provide documentation of recovery from a medical doctor.**

While on Tour:

- Face coverings that cover both the nose and mouth will be required any time guests are in public. This will include, but is not limited to, while on the motorcoach or other ground transportation, on all flights, in hotel and cruise ship common areas, at sightseeing locations, and at all restaurants until guests are seated.

- Guests must provide their own face coverings and are encouraged to bring a small supply that can be rotated throughout the tour. Guests are asked to follow [CDC guidelines](#) for how to select, wear, and care for their face coverings.
- Although cloth face coverings will be acceptable while on tour, surgical masks are now required to be worn on board most international flights. Guests are strongly encouraged to bring their own surgical masks to be worn while in flight. **Please note that airlines may not be able to provide passengers with surgical masks on site and may deny boarding to any passenger without one. It is essential that guests check the health & safety regulations imposed by their airline at approximately 72 hours prior to travel.**
- Upon arrival, and at the beginning of each day on tour, guests will receive a contactless temperature check from their Tour Director. Any guest registering a temperature of 100.4 degrees Fahrenheit or higher will be temporarily isolated from the group until a health care professional can determine that it is safe for them to rejoin the tour.
- Guests can also expect that some hotels, restaurants, and tourist sites will conduct contactless temperature checks upon entry.
- Guests will be asked to self-monitor for [COVID-19 symptoms](#) while on tour and report any new or worsening symptoms to the Tour Director.
- [Frequent hand washing or sanitizing](#) is encouraged while on tour. Guests can expect hand sanitizer to be available in hotel and cruise ship common areas, and at some restaurants and sightseeing venues. It will also be supplied on motorcoaches and other forms of ground transportation. While hand sanitizer will be readily available at most tour destinations, guests are expected to bring their own personal supply of both hand sanitizer and disinfecting wipes.
- Hand washing or sanitizing will be required before embarking and disembarking motor coaches and before group meals.
- All guests will be asked to practice proper [hygiene protocols](#), cover their coughs and sneezes, and avoid touching their faces.
- Physical distancing of at least six feet from other guests and the Odysseys Unlimited Tour Director will be required whenever possible.
- In the event that a guest develops cold or flu-like symptoms while on tour, they must inform their Tour Director immediately. If deemed necessary, the Tour Director will ask the guest to abstain from group activities, self-isolate and ensure they receive medical attention.
- Due to changing local regulations and on-the-ground circumstances, Tour Directors may find it necessary to make last minute changes to itineraries or deem that further health and safety protocols are required in addition to those listed above.
- In the interest of ensuring the health and safety of all group members, guests are asked to follow the above-listed protocols during unscheduled time and meals on their own. Furthermore, both during and outside of scheduled tour activities, guests are required to follow any and all local health and hygiene regulations intended to prevent the transmission of COVID-19.

Upon Return from Tour:

- Guests will be asked to inform Odysseys Unlimited immediately if they develop [COVID-19 symptoms](#) following their tour.
- Guests thereby consent to be contacted by Odysseys Unlimited for COVID-19 contact tracing efforts if necessary.
